

## Job posting freelancer

### Naturland – Association for Organic Agriculture e.V.

Naturland promotes organic farming and is one of the largest international organic associations with 54.000 farmers worldwide. Naturland sets the leading standard for organic aquaculture and combines organic and social responsibilities. Furthermore, Naturland developed requirements for sustainable capture fishery. The certification of sustainably captured and organically processed Nile Perch in Tanzania for the international market as well as the support of the local community have been a 10-year success story. Through strict adherence to the guidelines a responsible management of Nile perch stocks has been achieved.

For the next possible entry, we are looking for a
